**Summer 2020 & School Year 2020-2021**

### **Referral Services**

The teacher working closest with a child will observe each child if there is an indication that a referral is needed. Any concern about speech, language, hearing, vision, physical, cognitive, social or emotional development will be documented and presented to the director. If, after reviewing the documentation and observing the child, the director feels the child is in need of an evaluation or additional services, a conference will be set up with the parents/guardians to discuss the observations, recommend a plan of action or make a referral. A written statement will be given to the parents/guardians with a recommendation for services and a summary of observations. The statement will also include efforts of The Kids Community @ 284 program to accommodate the child's needs. Before a referral is made, written parental consent will be required. An updated list of community resources is available for the parents/guardians and the staff to use. This list will also be included in the Health Care Policy. If the referral agency determines that the child is not in need of services, we will review the child's progress every three months to determine if another referral is needed. All conferences and referrals will be documented in the child's file.

## Child Guidance

Classroom management will focus on protecting the children and setting ground rules that will strengthen their self-worth, development, and relationships. Where appropriate, children shall participate in the establishment of such rules, policies, and procedures. For children unable to participate in defining rules, policies and procedures, the staff will be sure to discipline based on the individual needs and development of each individual child, offering choices and providing children an opportunity to verbalize their feelings. Said rules will be reviewed with the children daily in positive and simple terms. Staff will be sure the children have a clear understanding of why such behavior is not acceptable. In the event of a child trying to hurt him/herself, the staff will remove that child from the situation immediately, to a part of the room unoccupied by other children. Consistent problem behavior will be brought to the parent/guardian's attention, as well as the directors. Hopefully with consistency both at home and the after-school program, the situation will be resolved.

The Kids Community @ 284 program prohibits

- corporal punishment
- confining a child (restraint)
- excessive time-outs
- subjecting children to cruel or severe punishment such as humiliation, verbal or physical abuse, neglect, or abusive treatment
- depriving children of meals and snacks or force-feeding children

We will discuss what strategies the teachers have offered in the program and ask the family to do the same at home. Staff will also offer any 'handouts' they may have received from trainings. If termination is unavoidable, we will work with families to prepare the child for his/her last day. Such conditions include but are not limited to: 1. Aggressive behavior, such as excessive biting, kicking, spitting etc. which may harm themselves, staff, or other children. Every effort will be made to rectify the situation before termination. 2.
